

Poems!

I love you like a smurf loves blue
smurfy smurfy
I love you.

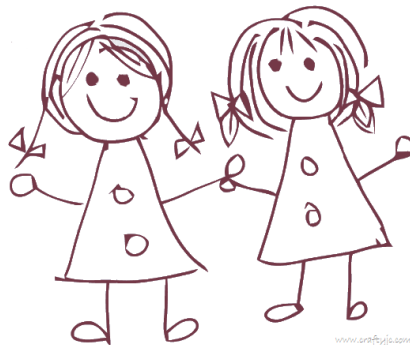

I may be sucked into a gaping hole of regret
and sadness but you're there to pull me out
and fill the hole with love and respect.

If regret and sadness pull me down
You are there to pull me up
And fill the hole with hope and happiness.

You give me the nudge that I need to fly
out of my comfort zone.

I now know that I am capable
because you were there to give me
that nudge I needed to do those things
that I know I love.

I am now confident
because of you.

Beach

*Smooth, tingly, soft bits of sand
Rushing to the chilly, icy water.
Dipping in one foot at a time.
Goosebumps peacefully travel up my back,
Waves smashing into each other
Gently fall back into the water
.Free*

Music

*Funky, cool, relaxing,
Standing up and rocking my jam!
Hips moving, hair swinging,
Jumping around I feel free,
Excitement traveling around my head.
Can't wait until the next song -
Groovey.*

LOVE

Red hearts beating with excitement.

Love at first sight

Ready to have a better future

Nervousness runs through me

Little angels fly above me

Ready to love, laugh and live.

Family.

Hurricanes

They get the ball from the scrum.
Barrett passes it down the line
Coles has the ball and he side steps
The player in front of him.
He gasses it to the try line
And dives onto the green grass
Try! Conversion!
Champions!

Beach

Soft grains of sand.
The soft sand gets hotter,
I rush into to the water
"It's cold!" I scream.
In time it feels good.
I float there for a long time
Peaceful.

Fishing

When I go fishing at night I feel
the cold shivers on my liver
when by the river.

silent night

My dad gets the hook
While I'm reading my book
and then I suddenly
feel crook.

silent night

We look at the line,
the line shook
there was something
on the hook.

silent night

When we caught
the fish it looked
like a book.

silent night.

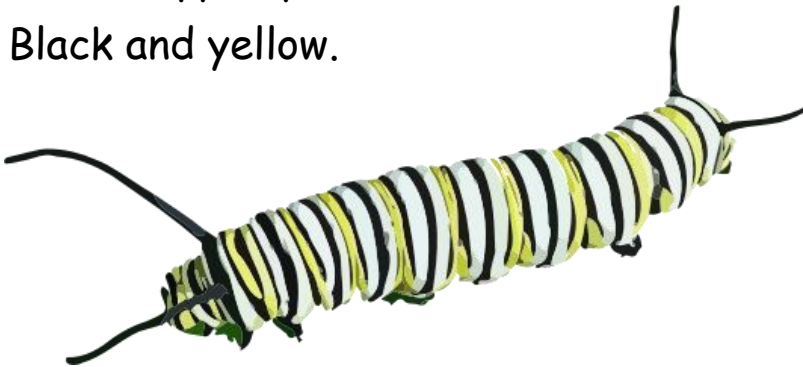

Insects

Caterpillars eating
The fresh vibrant green leaves.
Ladybugs scurrying to find shelter,
Earwigs crawling from your toes
To ear and munching upon the gooeyness.
Scorpions in the desert
Rushing from here to there.
Beatles stomping their feet -
Pitter patter pitter patter.
Butterflies waking from
A long sleep in their cocoon
While listening to people say
Awwwww.....Lovely.

Caterpillar
On the run
Trying to get a leaf.
Not just any leaf
A green nutritious,
Vibrant, lovely, tasty leaf.
Wow look at that caterpillars tummy!
It is stuffed full -
Black and yellow.

Perform

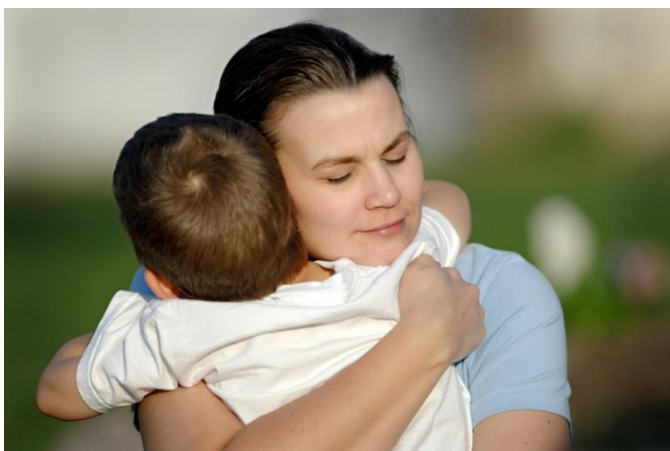

Stage six feet above,
Sweat dripping down your face,
Legs shivering like crazy,
Singing your best and singing really loud.
You finish your performance and you pass out,
You wake up two hours later
Feeling sleepy -
Stage.

Family

They care
There are ups and downs but we still get through it.
There will be deaths but we will still be strong.
Family will stay together even if there is an incident,
People still love us and that's what we want.
Love is all that a family needs
Care

KFC

Thick, hot, spicy meat - chicken
Racing down my throat
Slowly digesting
Happiness fills my body
Yummy.

Love

Red, loving hearts in our body.
Loving our family all day long,
Our loving will never stop.
Our peaceful love will never end.
Love travels up my heart,
I will love you forever
Blissful.

Seasons

Summer, sunny, salty heat.

Winter snow slowly carries on.

Spring flowers bursting into colour.

Autumn leaves slowly disappear into ashes.

Ice cream

Freezing cold

Comes in all different flavours.

The first lick I take of my ice cream,

I scream when my mouth explodes

With deliciousness.

Sharing, caring having fun
Having fun while shooting the gun.
Scary Colin picking pollen
Sticky sticky yellow pollen
Scared scared go away
When I'm scared you go away
Peacefully

Love

Warmhearted
Rushing to your love
Then being heartbroken
Falling to the ground
Slowly walking back home
Then your phone rings
Together

Snow White

Snow White

Beautiful,

Her skin is as white as snow.

Bites into a poisonous crunchy apple.

Her prince gave her a **KISS**.

She is now breathing,

They are married.

Goodbye Dwarfs.

Winter

Frosty mornings

Chilly, freezing wind,

Snuggled up with blankets

Sitting by the fire,

Delicious hot chocolate,

Painful fevers -

Frozen.

Summer

Boiling sun

Scrumptious Ice-cream

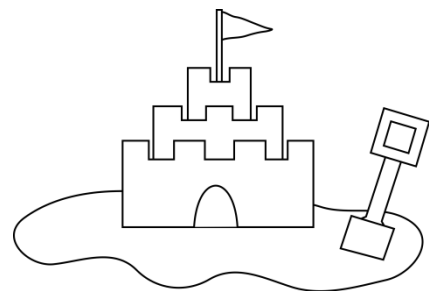

Swimming in the pool

Playing at the beach

Sandcastles crumble down

Painful overheating

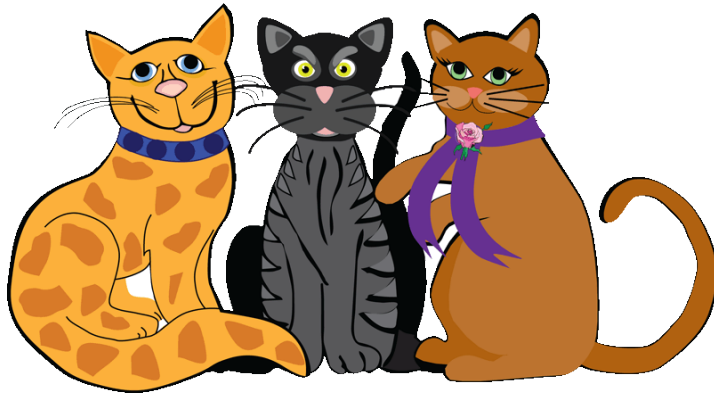

Sunburn

Cats

Soft fur
They cuddle you.
All super pretty colours,
Different names.
Always hungry,
Loving, warm,
Cats.

Levin... Hot air,
I feel the breeze in my hair
Messing with stuff everywhere!
Going to my friend's house
Up the tree we climb
We love to play with slime,
Then afterwards we drink lime!

Sitting on my bed with our cat,
Hoping that there is no rat,
While Jazlyn and I play leapfrog,
Trapped in my room playing on my ipod.
Seeing kids play a game of blast
And wondering who will come last.
