The Kangaraffe by Judi Billcliff

Whenever I see a Kangaraffe
All I can do is sit and laugh.
His arms are short, his neck is long,
His legs are muscly and very strong.
He's fast as a cheetah when playing sport
Zipping along the basketball court.
Reaching the hoop so easily
Scoring goal after goal speedily.
He gets red spots when he is hot,
A few on his tum but lots on his bot!
After a game he climbs in his car
With his head out the sunroof - how bizarre!

Imagine seeing a giraffe driving a sportscar along the road with his head out the roof. How bizarre indeed!
