

I Love Homework - Right?

I love to do my homework,
The thought excites me all the day.
As soon as I get home from school
It's maths I want - not play.
I love to get my school books out
It somehow works for me,
But before I start my maths project
I'll have some afternoon tea.

I love to do my homework,
My friends say I'm a freak.
The thought of doing homework
Keeps me going all the week.
When it comes to homework
I guess I'm just a winner,
But before I start my maths project
I think I'll have some dinner.
